EXPLANATORY NOTES

The occupations listed in this Schedule are those in respect of which in the general national interests restrictions will be placed in peace time on the acceptance of volunteers for certain forms of enlistment or enrolment for service in time of war.

The restrictions apply to acceptance for service (otherwise than in the volunteer's trade capacity, or, in the case of women, in nursing or first aid services) which will be whole-time in war but not in peace.

If an age is printed opposite an occupation in the Schedule, this means that the restriction as regards that occupation applies only to volunteers of or above that age.

If no age is printed opposite an occupation in the Schedule, the restriction applies to volunteers in that occupation whatever their age.

Nothing in the Schedule restricts—

- (a) acceptance for service which is whole-time in peace (*e.g.*, service in the Regular Armed Forces, the Regular Police Forces or the Regular Fire Brigades);
- (b) re-engagement for the same service of a person already engaged in a service;
- (c) acceptance for whole-time service in war in the volunteer's trade or professional capacity;
- (d) acceptance for A.R.P. service at the volunteer's place of employment;
- (e) acceptance for service which will be only part-time in war, subject to the clear understanding that in the case of persons covered by the Schedule work in the occupation listed in the Schedule will have first claim on them in war-time;
- (f) acceptance of women for nursing and first aid services.

The Schedule is subject to revision from time to time.

Schedule of Reserved Occupations

(*Note.*—The Schedule is arranged alphabetically in groups of occupations and is to be used without regard to the particular industry in which any occupation is followed. A working owner or working principal of a business (unless his occupation is specifically included in the Schedule) should be regarded as coming within the foreman group of his appropriate trade. References to men are to be read as including women.)

Foreman, charge hand		Steam engine fitter (other than marine fitter)	
Erector (general hand)		Textile machinery fitter, fitter-erector	
Millwright, maintenance engineer, maintenance fitter		Turbine blader	
Colliery fitter or mechanic		Agricultural machinery fitter	
Iron and steel works, blast furnace, maintenance fitter		Constructional ironwork fitter	
Dock fitter		Metal window fitter, iron casement fitter, metal door frame fitter	
Marine engineer (sea going)		Typewriter, sewing machine, etc., mechanic (repairer)	
Refrigerating plant engineer		Motor fitter, motor mechanic	
Laundry engineer		Garage hand (mechanic)	
Engine erector (other than internal combustion engine)		Road tester (motor vehicle)	
Engine erector (internal combustion engine, excluding aero engine)		Other fitters (not specified above)	
Aero engine installation hand			
Engine tester (internal combustion engine), bench tester			
Other erectors and fitters (not specified above)			
 <i>Fitter, Erector, etc. (Electrical Engineering)</i>		 <i>Fitter-Assembler (Motor, Electrical, etc., Engineering)</i>	
Foreman, charge hand		Foreman, charge hand	
Electrical fitter (general hand)		Fitter-assembler (motor engineering)	
Electrical machinery erector		Fitter-assembler (electrical engineering)	
Maintenance electrician, electrical engineer (maintenance)		Fitter-assembler (other engineering)	
Armature builder, commutator builder, core builder		Other fitter-assemblers (not specified above)	
Armature winder, heavy coil winder	21		
Controller maker, heavy switch-gear maker, rheostat builder			
Magneto maker, assembler			
Switchboard maker, erector			
Transformer builder, fitter			
Tester, inspector			
Other erectors and fitters (not specified above)			
 <i>Other Fitters (excluding Fitter-Assemblers)</i>		 <i>Fitter (Brass and other Non-Ferrous Metals)—see Brass, etc., Turner, Finisher, Fitter</i>	
Foreman, charge hand			
Fitter (not working to very fine limits)			
Marine fitter, marine engine erector
